

DELETE RATING DIMENSION

Overview

This end point allows you to delete an existing **rating dimension** for a **game bucket**.

We strongly recommend you read about **rating concepts** to understand how dimensions in ratings work.

Request URL

All parameters in the request must be sent as a **POST** HTTP request. Make all requests to the following URL:

```
1 | https://cloudsave.construct.net/bucketdeleteratingsdimension.js
```

Authenticating The Request

This end point is for **secret key** authenticated requests only. Signed in players cannot call this end point.

secret string **Required**

Your games **secret API key**.

Request Parameters

gameID guid **Required**

The ID of the game you are making this request against. You can find the ID of your game in your [Construct Game Services \(CGS\) account](#).

thingID guid Required

The ID of the [game bucket](#) you're deleting a rating dimension on.

dimensionID string Required

The ID of the [rating dimension](#) you're deleting.

Success Response

Successful responses always return a `HTTP 200` status code.

```
1 | {  
2 |   "success": true,  
3 |   "formattingCulture": "en-us"  
4 | }
```

Response Properties

success bool

If the request was successful or not.

formattingCulture string

If some return values are [culture specific](#), this property indicates what culture the values have been rendered as.

Failure Response

Unsuccessful responses always return `HTTP 4xx` status codes.

```
1 | {  
2 |   "success": false,  
3 |   "errorMessage": "Your request failed due to...",  
4 |   "helpURL": "https://www.construct.net/en/game-services/manuals",  
5 |   "shouldRetry": false  
6 | }
```

Response Properties

success bool

If the request was successful or not.

errorMessage string

An error message with more detailed information on why the request failed.

helpURL url (string)

A link to documentation which should provide help with the error.

shouldRetry bool

Should the client wait a short period of time and retry the request. Usually this is false, but returns true if the request failed due to rate limiting.
