

# REMOVE XP

## Overview

This end point allows you to deduct XP from a player. The amount removed **is not** affected by any currently active bonuses.

## Request URL

All parameters in the request must be sent as a `POST` HTTP request. Make all requests to the following URL:

```
1 | https://xp.construct.net/removexp.json
```

## Authenticating The Request

This end point can only be called with `secret key` authentication and specifying which player ID you're making the request against.

### Secret Key Authentication

`secret` `string` **Required**

Your games `secret API key`.

`playerID` `guid` **Required**

The player ID you wish to make this request against.

## Request Parameters

`gameID` `guid` **Required**

The ID of the game you are making this request against. You can find the ID of your game in your [Construct Game Services \(CGS\) account](#).

---

**xp** int64 **Required**

How much XP to remove.

## Success Response

Successful responses always return a `HTTP 200` status code.

```
1 | {  
2 |   "success": true,  
3 |   "formattingCulture": "en-us"  
4 | }
```

## Response Properties

---

**success** bool

If the request was successful or not.

---

**formattingCulture** string

If some return values are [culture specific](#), this property indicates what culture the values have been rendered as.

## Failure Response

Unsuccessful responses always return `HTTP 4xx` status codes.

```
1 | {  
2 |   "success": false,  
3 |   "errorMessage": "Your request failed due to...",  
4 |   "helpURL": "https://www.construct.net/en/game-services/manuals",  
5 |   "shouldRetry": false  
6 | }
```

## Response Properties

---

**success** bool

If the request was successful or not.

**errorMessage** string

An error message with more detailed information on why the request failed.

---

**helpURL** url (string)

A link to documentation which should provide help with the error.

---

**shouldRetry** bool

Should the client wait a short period of time and retry the request. Usually this is false, but returns true if the request failed due to rate limiting.
