

GET A SESSION

View online: <https://www.construct.net/en/game-services/manuals/game-services/authentication/api-end-points/sessions/get-session>

Overview

Retrieves the signed in players current **session object**. This returns useful information about the current player that you may want to display in your game.

Request URL

All parameters in the request must be sent as a **POST** HTTP request. Make all requests to the following URL:

```
https://auth.construct.net/getsession.json
```

Authenticating The Request

This end point is for **signed in** players only.

sessionKey string Required

The **session key** of the player you're making the request against.

Request Parameters

gameID **guid** Required

The ID of the game you are making this request against. You can find the ID of your game in your **Construct Game Services (CGS) account**.

Success Response

Successful responses always return a **HTTP 200** status code.

```
{
  "success": true,
  "session": { ... },
  "formattingCulture": "en-us"
}
```

Response Properties

success **bool**

If the request was successful or not.

session **Session**

The session returned from the request.

formatting**Culture** **string**

If some return values are **culture specific**, this property indicates what culture the values have been rendered as.

Failure Response

Unsuccessful responses always return **HTTP 4xx** status codes.

```
{
  "success": false,
  "errorMessage": "Your request failed due to...",
  "helpURL": "https://www.construct.net/en/game-services/manuals/game-services/authentication/ap",
  "shouldRetry": false
}
```

Response Properties

success **bool**

If the request was successful or not.

errorMessage **string**

An error message with more detailed information on why the request failed.

helpURL **url (string)**

A link to documentation which should provide help with the error.

shouldRetry **bool**

Should the client wait a short period of time and retry the request. Usually this is false, but returns true if the request failed due to rate limiting.
