

DELETE RATING DIMENSION

View online: <https://www.construct.net/en/game-services/manuals/game-services/broadcasts/api-end-points/ratings/delete-dimension>

Overview

This end point allows you to delete an existing **rating dimension** for a **channel**.

We strongly recommend you read about **rating concepts** to understand how dimensions in ratings work.

Request URL

All parameters in the request must be sent as a **POST** HTTP request. Make all requests to the following URL:

```
https://broadcasts.construct.net/channeldeleteratingsdimension.json
```

Authenticating The Request

This end point is for **secret key** authenticated requests only. Signed in players cannot call this end point.

secret string Required

Your games **secret API key**.

Request Parameters

gameID **guid** Required

The ID of the game you are making this request against. You can find the ID of your game in your **Construct Game Services (CGS) account**.

thingID **guid** Required

The ID of the **channel** you're deleting a rating dimension on.

dimensionID string Required

The ID of the **rating dimension** you're deleting.

Success Response

Successful responses always return a `HTTP 200` status code.

```
{
  "success": true,
  "formattingCulture": "en-us"
}
```

Response Properties

success `bool`

If the request was successful or not.

formattingCulture `string`

If some return values are `culture specific`, this property indicates what culture the values have been rendered as.

Failure Response

Unsuccessful responses always return `HTTP 4xx` status codes.

```
{
  "success": false,
  "errorMessage": "Your request failed due to...",
  "helpURL": "https://www.construct.net/en/game-services/manuals/game-services/broadcasts/api-en",
  "shouldRetry": false
}
```

Response Properties

success `bool`

If the request was successful or not.

errorMessage `string`

An error message with more detailed information on why the request failed.

helpURL `url (string)`

A link to documentation which should provide help with the error.

shouldRetry `bool`

Should the client wait a short period of time and retry the request. Usually this is false, but returns true if the request failed due to rate limiting.
