DELETING A LEADERBOARD

View online: https://www.construct.net/en/game-services/manuals/game-services/leaderboards/delete-leaderboard

Deleting a Leaderboard

Deleting leaderboards must be done through your Game Services account pages.

When leaderboards are deleted, they are placed into a deletion queue and the deletion will progress in stages. It is only possible to cancel a deletion if the deletion has not yet started. Once deletion has started, it will not be possible to cancel the deletion.
