THE MAIN TOOLBAR

View online: https://www.construct.net/en/make-games/manuals/construct-3/interface/main-toolbar

---

The main toolbar provides quick access to a few of the most commonly-used options in Construct. It appears next to the main menu button.

The main toolbar

The main toolbar has the following buttons:

- **Save:** save the current project to its last saved location. If the project has not been saved yet, this defaults to Cloud Save. For more information see Saving & sharing projects.
- **Undo** and **Redo:** undo the last performed action in the editor. After pressing undo, you can then redo the action again. Click the dropdown arrow next to the button to see a list of the undo or redo actions. Selecting an item from the list will undo or redo all the actions up to the chosen item.
- **Preview:** run a preview of the current layout. By default this opens a popup window; you may be prompted to allow popups. Click the dropdown arrow next to the button to see a list of other kinds of preview. For more information see Testing projects. The dropdown arrow menu also allows changing the function of the button to one of the other options, such as *Debug layout*.
