ACTIONS

View online: https://www.construct.net/en/make-games/manuals/construct-3/project-primitives/events/actions

In events, **actions** do something, such as create an object or go to another layout. They appear to the right of the event.

Actions only affect the instances that met the event's conditions. See How Events Work for more information.

To add an action to an event, click the **Add action** link that appears beside the event underneath any existing actions. For more information on adding and editing events, see Event Sheet View.

Breakpoints

Paid plans only It's possible to place a breakpoint on an action, to pause execution when it is reached in the debugger. For more information, see breakpoints.
